Hardcover: \$98.00

Discount Price: \$69.00*

ISBN: 978-1-4522-8689-1

March 2014, 672 pages

Designed to provide researchers clear and informative insight into techniques of meta-analysis, the **Third Edition** of **Methods of Meta-Analysis: Correcting Error and Bias in Research Findings** is the most comprehensive text on meta-analysis available today. It is the only book that presents a full and usable treatment of the role of study artifacts in distorting study results, as well as methods for correcting results for such biases and errors.

Meta-analysis is arguably the most important methodological innovation in the last thirty-five years, due to its immense impact on the development of cumulative knowledge and professional practice. This text, now in its updated **Third Edition**, has been revised to cover the newest developments in meta-analysis methods, evaluation, correction, and more. This reader-friendly book is the definitive resource on meta-analysis.
